Church records are the focus of Archion's activities. They record baptism, marriages, funerals, and confirmations, thus representing the most important source available in Germany for family history and genealogical research.

Archion is a collaborative project among the majority of German Protestant churches.

AVAILABLE ONLINE

Archion makes it possible to search for your ancestors in original sources from the comfort of your own home, anywhere in the world at any time of day.

More than 70,000 church records can be accessed through a variety of subscriptions. Our database content continues to grow with new digitized church records from across Germany, as well as the former eastern areas of Germany, being added every day.
